## TENSL® STEEL RING

## TENSL® Steel Ring Introduction

“天使”钢领是我公司新开发研制生产的新型钢领。

该钢领选用国产优质专用原材料，经过精密的机械加工后，采用了特殊的表面硬化处理工艺手段，使钢领表面具有了较强的硬度和较低的摩擦系数。并具有耐腐蚀、抗粘着，纺纱过程中毛羽少毛羽稳定期长，寿命和进口钢领可相媲美的独特优点。可成为高速纺、紧密纺的首选品种。

物美价廉性价比优于国外进口钢领。

选用“天使”钢领将会给您的企业带来较明显的经济效益给使用者带来较大的经济利益。

TENSL® steel ring is made of selected steel, after precision machining and special surface hardening treatment process, TENSL® steelring is high in surface hardness and low in friction factor. TENSL® steel ring gives longer service life, less hairness and extended period of stable hairness, those unique features are as good as of the well-known brands in the market, but its performance price is far more remarkable than others.

TENSL® steel ring, a right choice for high-speed spinning, and compact spinning.
